for 1 st and \$25 for each additional | | <input type="checkbox"/> Trim and Electric File Nails \$15 |

Dental Procedures to be preformed with any other surgery:

- Extract Baby Teeth Fluoride Application \$14

Owner Release

For the enhanced protection of our patients, we recommend the following screenings/procedures for all pets prior to administration of anesthetics. **These are optional for additional costs.**

I do do not authorize the recommended Pre-Surgical Blood Screening w/ CBC at the cost of \$65. I understand that I assume all responsibility risk/complications resulting from my refusal of this service. **(We highly recommend any animal over 7 years of age have Pre surgical Blood Screening. If Blood screening not elected veterinarian has the option of declining surgery based upon age and quality of your pets health.)**

I do do not authorize a Pre anesthetic Electrocardiogram (EKG) at the cost of \$20. I understand that I assume all responsibility for additional risk/complications resulting from my refusal of this service.

I do do not authorize a Pre anesthetic Blood Pressure at the cost of \$30 and \$16 if you chose EKG. I understand that I assume all responsibility for additional risk/complication resulting from my refusal of this service. **(We highly recommend any animal with Thyroid or Heart conditions have their Blood Pressure checked.)**

I do do not authorize a IV Catheter at the cost of \$32. Should an emergency arise (i.e. reaction to anesthesia, excessive bleeding, etc.) already having venous access allows immediate/more rapid drug administration and may increase chances of survival.

You are to use all reasonable precautions against injury, escape or death of my pet. I understand that anesthesia and surgeries always involves some risks to my pet and agree to hold you harmless, in the absence of negligence, in connection with these procedures. In the event complications arise and I cannot be immediately contacted at the below listed phone number, you are directed to make the decision you deem best for my pet. **I have read the foregoing, understand what it says, and agree.**

Surf City Pet Hospital

Laser Surgery Consent Form

As part of our commitment to quality care, we are pleased to offer laser surgery as an option for safe, comfortable treatment for your pet. We feel that laser surgery provides the best possible care for your pet.

The benefits of laser surgery are:

Less Pain – the laser seals nerve endings as it “cuts”, so your pet may require fewer anesthetics during the operation, also reducing pain after the surgery.

Less Bleeding – the laser seals small blood vessels during the surgery, greatly reducing blood loss.

Less Swelling – the laser energy does not crush, tear, or bruise the tissue because there is no physical contact with the tissue.

Your pet will be treated with a carbon dioxide laser, which produces an invisible beam of light that can remove a precise layer of tissue at one time. This can reduce your pet’s post-operative recovery time, leading to a quicker return to normal activities.

I understand that laser surgery is an option and I have been advised of the advantages the procedure will offer.

_____ **Yes, I want my pet to have laser surgery and understand the costs listed below are in addition to normal surgery costs.**

- *Level I: \$40 (spays, neuters, minor skin lesions such as warts, etc.)*
- *Level II: \$70 (oral surgery, eyelid repair, etc.)*
- *Level III: \$100 (declaws , larger tumor removals, etc.)*
- *Level IV: \$110-\$210 (mammary tumors, cosmetic procedures, soft palate, etc.)*
- *Laser wart removal with local Anesthesia for \$25, then \$50 for first wart and \$25 for each additional.*

_____ **No, I decline laser surgery for my pet.**
